

Installation and Configuration of CloudSim in Eclipse IDE

AIM:

To install and configure the CloudSim in Eclipse IDE and run a java program in it.

PROCEDURE:

1. Java Installation:

- a. Check Java in your system.
- b. If Java not installed then download Java.
- c. Install Java setup.
- d. Set the path for Java in Environment Variables.

2. Download Cloud Sim and Additional JAR file:

- a. Download CloudSim 3.0.3
- b. Download common math 3 JAR file

3. Eclipse IDE Installation:

- a. Download the correct version of Eclipse IDE for your system.
- b. Install Eclipse IDE.

4. Run Cloud Sim in Eclipse:

- a. Put the common math 3 JAR file in the JAR folder of CloudSim.
- b. Build a new java project with CloudSim folder.
